

No project is possible without passion.
Brasserie Surréaliste is the unique fusion of two passionate brothers.
One dreams about beers, the other dreams about antiques.
Nothing seemed to link these two passions, and this is precisely what makes
Brasserie Surréaliste - surreal.
The unexpected juxtaposition of passions creating a dream-like momentum.

“For me, there’s no difference between
dream and reality.
I never know if what I’m doing
is done when I’m dreaming or when I’m awake. “
