

*Brewery & Restaurant*

No project is possible without passion.

Brasserie Surréaliste is the unique fusion of two passionated brothers.

One dreams about beers, the other dreams about antiques.

Nothing seemed to link these two passions, and this is precisely what makes

Brasserie Surréaliste - surreal.

The unexpected juxtaposition of passions creating a dream-like momentum.

“For me, there’s no difference between  
dream and reality.  
I never know if what I’m doing  
is done when I’m dreaming or when I’m awake. “

Man Ray

If your friends are late...

Brasserie Surrealiste opened its doors in 2022 but is the result of 6 containers of dismantled building supplies, hundreds of homebrews and thousands of kilometers to find all the objects you have around you.

The journey began with the dream to create a brewery in the world capital of beers. On a dark day in December 2017, we discovered this 1932 abandoned Art Deco masterpiece by architect De Boelpape. There was no hesitation, we had found our nest.

Just below your feet, a 10HL microbrewery is active from Monday 8am to produce the beers you will soon have on your table. Our basement is a laboratory to innovate and experience the infinite possibilities that the beer world has to offer.

At first, a banana warehouse, this building had as many lives as a cat. Garage, parking, decoration store, fashion studio, exhibition space and finally left abandoned for two decades. As often, each generation put a new layer of floor & paint without sometimes much respect for its initial beauty. In the 70's, a ramp was going to the last floor and the tenants could access a loft with their car...

We were very proud to give back an industrial vocation to the building and at the same time the opportunity to everyone to eat, share, laugh & dance between these high walls. Architecturally, our objective was to make you think everything was always there and we doubt you will be able to spot which wall is new and which one is old.

This anecdote about the floor shall illustrate the twists and turns of this project... At the beginning, there was a thin wood floor we wanted to keep, but it was destroyed by a flood. We then removed three layers of flooring witnessing 3 generations of occupations. In the end, we discovered 20 meters of a magnificent glass bricks floor.

An exceptional work showcasing the attention to details back in those days and illustrating the perfect combination between functionality and aesthetics. Sadly it was technically impossible to keep, but the vision had inspired us so much we then decided to recreate a similar glass brick pattern as made in the 1930s...

A pattern that you can find in the menu you have now in your hands. Our cuisine DNA is on the image of this project; "Brutal with a romantic twist". Rough & quality ingredients as the concrete structure of the building, spiced up with unconventional associations such as the neo-gothic decorative elements, brutalist lamps and 18th century church benches.

On the ground floor, except for the kitchen materials and the custom red speakers nothing is new. Each door, each table, each lamp is a vintage piece that had a first life in a house and is now living a second life here with you. I believe objects have a soul, an emotional background that makes a place becoming a home. This dream house is a moment to escape from the real world around us.

Brasserie Surréaliste was a playground to express both our creativity in our respective passions. We hope you will enjoy it as much as we do. We take this opportunity to thank all the people who dreamed with us since the beginning. Family, friends, coworkers, suppliers, thank you for supporting us even when the beer was foaming too much.

At Brasserie Surrealiste we do what we love. The beer we love, the music we love, the food we love. Like a Dali painting, we wanted a place which is out of time and conventions. We wish you a great trip !
