

## **Beer Geek Bar Supervisor**

Brasserie Surréaliste is a young micro-brewery & restaurant founded by two passionate brothers specializing in hop-forward and sour beers.

We recently found home in the trendy neighborhood of Dansaert in Brussels, in an iconic art-deco building of 1,500 square meters.

Our 600m2 restaurant, located just above the brewery, just opened and features big dining tables, a beer shop, a winter-garden and soon a huge terrace.

We propose juicy beers and wines along a creative food on sharing plates.

Our wish is to give our customers an amazing experience and share our passion for music in a festive atmosphere on week-ends.
